 Plan and Specification Review Determination
ROOFING APPLICATION (page 1 of 2)

ACC approval includes aesthetic features only and does not imply or warrant any structural integrity. This approval is not based on an engineering review of the site plan or structure.

Please note: Roofing requires a City of Mill Creek permit (425) 551-7254.

<i>For MCCA Use Only</i>

- Paramount Advantage (PABCO)
- Paramount (PABCO)
- Cascade (PABCO)
- Premier Advantage (PABCO)
- Sawtooth Shingle 350 (Malarky)
- Windsor XL (Malarky)
- Originally Covenanted Materials

Members are invited to submit materials other than those listed above. The Association may choose to research and review the material based upon aesthetics and how closely the material resembles one of the originally covenanted materials (see asterisks above). MCCA does not warrant any of the materials, even covenanted materials. All ACC reviews are based on aesthetics only.

The submittal process is simple, free, and can save much on expensive change orders. The Covenants allow the ACC a full thirty (30) days to process requests. However, if a new material is submitted, the thirty (30) day clause is void, as the review process may take longer to allow all parties to review and make recommendations. The Board of Directors has the final say in what materials may be used.

REMINDER: All exterior projects (projects that will visible affect the outward appearance of the property) must be submitted to the ACC for approval in advance of beginning the work. This includes re-roofing even with previously approved materials, and re-painting even with the same colors. Unfortunately, it is difficult to see if something is the same after it has been covered.

This signature verifies that the applicant has reviewed the above policy and agrees to abide by all guidelines and terms of approval set forth on the application attached. Signature also implies "Right of Entry" for members of the ACC for the purpose of plan review.
